

YASHWANTH M

Software Engineer / Full Stack Developer / AI/ML & QA Enthusiast

Bengaluru, India | 6366024389 | Yashwanthm2408@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate (2026) with hands-on experience across Java, Python, and JavaScript through four internships and academic projects, building full-stack web applications (MERN) and machine learning-based tools. Skilled in OOP, SQL/NoSQL databases, and REST APIs, with working knowledge of manual testing, test case design, and defect tracking through SDLC/STLC-driven project work. Comfortable with Git, debugging, and Agile collaboration; currently strengthening full-stack skills through a Java Full Stack Development program. A quick learner with strong analytical thinking, eager to contribute as a Software Engineer / QA Engineer.

TECHNICAL SKILLS

Languages: Core Java (OOP), Python, JavaScript (Basic), C

Web, APIs & Databases: HTML, CSS, React.js, Node.js, REST APIs, SQL, MongoDB

Software Testing: Manual Testing, Test Case Design & Execution, Functional & Regression Testing, Defect/Bug Tracking, SDLC & STLC, UAT Support

Practices & Tools: Git & Version Control, Code Reviews, Technical Documentation, Postman

Cloud: Google Cloud (Basic)

PROFESSIONAL EXPERIENCE

Java Full Stack Developer Trainee | Dhee Coding Lab

2026 – Present

- Training in Core Java, OOP, SQL, and full-stack development, following industry-standard SDLC and Agile practices.
- Building and debugging applications with a focus on clean, maintainable code, unit-level validation, and REST API integration.

Junior Software Engineer Intern | INDPRO Pvt. Ltd.

2026

- Contributed to Test Track Pro, a software product, by performing manual testing, executing test cases, and logging defects through the full test lifecycle.
- Debugged application issues and implemented new features in collaboration with senior developers, improving overall feature stability.
- Participated in code reviews and regression testing cycles, helping improve application performance and release reliability.

Full Stack Web Development Intern | BHEL Electronics Division

2025

- Developed a Taxi Booking Application for internal employee use, applying core SDLC concepts across design, development, and testing.
- Performed functional testing of booking and scheduling workflows to validate application behavior before deployment.

Python & Data Science Intern | YBI Foundation

2024

- Applied Python for data analysis and building foundational AI/ML models as part of a structured data science internship.

PROJECTS

Eco_Skin — AI-Based Skincare Advisor (Final Year Project)

- Built a Python-based machine learning recommendation system generating personalized skincare suggestions from user input.
- Designed and implemented data processing logic and an interactive interface to deliver model outputs clearly.

YM-Pay — MERN Stack Digital Payment Platform

- Built a digital payments platform using MongoDB, React.js, and Node.js with secure REST APIs.
- Implemented user authentication, secure transaction handling, and payment history management.

BHEL Taxi Booking Application

- Designed and implemented cab booking, trip scheduling, and user management features.
- Improved booking efficiency through a streamlined, user-friendly workflow.

EDUCATION

Bachelor of Engineering, Computer Science & Engineering

2026

Vivekananda Institute of Technology, Bengaluru (VTU) — CGPA: 7.8

CERTIFICATIONS

- Java Full Stack Development — Dhee Coding Lab (In Progress)
 - Google AI Essentials | Foundations of Cybersecurity
 - NPTEL Elite — Internet of Things (IoT) | AICTE — MERN Stack
- Languages:** English, Hindi, Kannada, Telugu
